The diagram above shows how the 7-way flat installs. Wire 1 connects to your vehicle's battery. Wire 2 connects to the vacuum pump included with the Stealth. Wires 3, 4, and 6 connect to the corresponding, color-coded wires on the Stealth's main unit. These wires have quick-plug ends for simple plug-and-play connecting. Wire 5 is the ground wire.

Brake Buddy Stealth Supplemental Braking System ...

Made a long run for the vacuum hose to get up to the engine compartment through the firewall. By removing the cowl on the driver side, it exposes a huge Gromit where the main wiring harness passes through the firewall. It actually had two nipples ready to be cut off to run the vacuum hose and the wires through — so that part was pretty easy.
