Digital Soil Assessments and Beyond | Taylor & Francis Group

Over the last 10 years Digital Soil Mapping (DSM) has emerged as a credible alternative to traditional soil mapping. However, DSM should not be seen as an end in itself, but rather as a technique for providing data and information for a new framework for soil assessment which we call Digital Soil Assessment (DSA). Although still somewhat fluid, a procedural framework for DSM and DSA with its ...

Digital Soil Assessments and Beyond: Alex B. McBratney ...

Abstract. Digital soil assessment goes beyond the goals of digital soil mapping. Digital soil assessment (DSA) can be defined (from McBratney et al. (2012)) as the translation of digital soil mapping outputs into decision making aids that are framed by the particular, contextual human-value system which addresses the question/s at hand.

Digital soil assessments and beyond : proceedings of the ...

The scope of digital soil mapping is described, but it is not seen as an end in itself. It provides data and information for a new framework for soil assessment which we call digital soil assessment. Although still somewhat fluid, a procedural framework for digital soil mapping and assessment with its links and feedbacks are set out diagrammatically and discussed.
