What are team dynamics? A team can be defined as two or more people working together to interdependently to meet a specific goal or purpose. Outside of this, a team can be for the long term or come together for a few hours. Group dynamics can be understood as how team member's distinct roles and behaviours impact other group members and the group as a whole. Team dynamics are therefore the unconscious, psychological factors that influence the direction of a team's behaviour and performance.
