ATC Manuals

Hey guys, I just bought a 84 atc 200S. The bike is currently not running. The previous owner thinks it's either the CDI or the stator coils because theres no current. I'm still to perform a complete diagnostic but what I noticed is that it's missing the decompression cable that connects to the valve lifter. What's the exact funtion of the this cable??

atc honda 200S decompression cable/purpose??
