What this book proves to me, more than anything, is that we need to have our presidential candidates and presidents under non-partisan or bi-partisan stringent physical \*and\* mental health review. We currently don't even hold candidates accountable to provide accurate, reliable medical histories and a certification that they are in good ...

About the chapters and pages on MASTERY - I would like to say - you have to read them for yourself. I found this the most challenging part of the book because though I read it in entirety, the retention was not that high. This is merely because masters are not common people. They flow through extreme waves of consciousness.
