Love them or hate them, a cover letter is a crucial part of your job application. Unless the job posting specifically says not to include one, you should always include a well-written, personalized cover letter. It's the first impression you'll make with a potential employer, and it's your chance to outshine the competition.

A professional resume must highlight your skills, experience, work history, and important accomplishments so that hiring managers can determine whether or not you're qualified for a job. What you might not know is that there are a few things that don't belong on your resume—things that might not tank your chances at a job, but won't do you any favors, either.

2.2.2 Standard Makefile Targets. So far we have come across four ways to run make in the GNU Build System: make, make check, make install, and make installcheck. The words check, install, and installcheck, passed as arguments to make, are called targets. make is a shorthand for make all, all being the default target in the GNU Build System.. Here is a list of the most useful targets that the GNU ...
