This world, constructed by engineers, rarely appears in the curriculum until college, and even then, as little as 8 percent of incoming freshmen choose to pursue an engineering major, says Leigh Abts, a research associate at the University of Maryland's School of Engineering and College of Education.

Teaching Kids to Think Like Engineers | Discover Magazine

Plastic pollution is a pervasive and growing problem. To estimate the effectiveness of interventions to reduce plastic pollution, we modeled stocks and flows of municipal solid waste and four sources of microplastics through the global plastic system for five scenarios between 2016 and 2040. Implementing all feasible interventions reduced plastic pollution by 40% from 2016 rates and 78% ...
