Physics Taylor Sol

where John Wheeler was a professor. The resulting text emphasized the unity of spacetime and those quantities (such as proper time, proper distance, mass) that are invariant, the same for all observers, rather than those quantities (such as space and time separations) that are relative, different for different observers.

This is an updated
version of the original
Spacetime Physics

which was used in my
sophomore physics
class in 1968-69, just a
few years after the
original was published.

The new edition is
greatly expanded from
the original, from 208
pages to 312 pages,
and includes many new
problems, paradoxes
and puzzles, and better
