### **The Genesis Of Complexity Ralph Abraham**

The theories of complexity comprise a system of great breadth. But what is included under this umbrella? Here we attempt a portrait of complexity theory, seen through the lens of complexity theory itself. That is, we portray the subject as an evolving complex dynamical system, or social network, with bifurcations, emergent properties, and so on.

Jantsch was described as "quiet and modest", but as an "original polymath and genius" by Ralph H. Abraham in "The Genesis of Complexity". Magoroh Maruyama wrote in a eulogy: Jantsch succumbed at the age of 51 to the material and physical hardships that worsened progressively during the last decade of his prolific and still young life.
